Steve,

Please find Chris' confirmation below that the island can handle the estimated trash output per week. Chris is the Property Manager, Diamond Cove.

Thank you,

Alex

Haha, of course it does!

Yes, it can handle that.

Hi Chris!

Hope you're staying warm. Came up for 2.5 days with the baby and of course it snows!

Trash question - Rocky estimates 28-32 large trash bags per week. He believes this is a major overestimation, but wants to be conservative. I'm confirming with you that the island's transfer station can handle that volume.

Thanks!

Alex
